

VACANCY TECHNICAL PROJECT MANAGER / PMO

We are looking for a driven and ambitious Technical Project Manager or PMO who keeps an overview of our customer projects and ensures that agreements with customers will be accomplished.

What makes us a great place to work?

We focus on developing and selling professional audio and video equipment for the international broadcast industry with customers like Sky, BBC, NEP Broadcast Services, TF1, and many others. The head office is located in the Netherlands. In addition to our own sales offices in England, France, China and Singapore, We have a worldwide distribution network of dealers and system integrators. Both at the office in the Netherlands and England our R&D teams work on software and firmware development. You will work in Gilze, at the head office, but you will also be travelling regularly abroad.

What does your working day look like?

As a technical project manager, you are responsible for managing customer projects worldwide. It is important that you keep an overview and that you control the process and the agreements made. Some tasks: project planning, progress reporting, budget management, quality monitoring and delivery time. You have intensive customer contact and you work closely with the R&D team in the Netherlands and UK, with the support departments and the Sales Managers worldwide.

During your work, you will deal with technical people with different interests. Thanks to your strong personality and experience, you will not let yourself be puzzled, you dare to make decisions and tackle any challenge.

Do you have the following skills?

- A finished (technical) higher professional education;
- Organized, meticulous and proactive
- Able to prioritize and organize their workload effectively
- Several years of work experience in a technical environment;
- Affinity with broadcast and IT;
- Experience in the field of project management;
- Communicative skills in Dutch and English, both in word and in writing;
- You are customer-oriented, result-driven, and stress-resistant and you go for quality;
- You know how to motivate and inspire a team with your personality.

What do we offer you?

In addition to this great role in which you will have the opportunity to be a key team member in varied and challenging projects at a top tier manufacturer of broadcast equipment, you will also be able to entitled to the following:

- In house training & development;
- Career advancement / growth opportunities;
- Competitive salary based on your experience;
- A challenging job with short communication lines in the broadcast industry;
- A varying job with a lot of responsibility;
- Challenging projects with leading customers;
- Flexible working hours;
- Laptop & mobile phone;
- Excellent secondary employment conditions, including a pension scheme;
- Travel allowance or lease car.
