

## Vacancy Embedded Software Developer

### Company

Axon Digital Design is specialized in development, manufacturing and selling of professional audio- and video equipment, specifically designed to serve the broadcast industry and its related industries. We work closely together with dealers and operate globally.

Axon is built on innovation and excellence, with a strong team of R&D experts whose experience and dedication is unrivalled. Actively and tirelessly pushing research and development to the foreground, our mission is to develop forward-thinking technologies that anticipate and satisfy the needs of customers – to save time, mitigate risks, dramatically reduce capital and operational costs and deliver competitive advantage.

### Position

We are looking for a Software Developer for our R&D team in Gilze, the Netherlands. The team consist of approximately 30 employees and you will be working together with software architects, system test engineers, hardware-, software- and FPGA developers.

### Tasks & responsibilities

The activities of the Software Developer mainly focus on the design and development of embedded, multi-threading, real-time, high-throughput software. You will participate in Agile multidisciplinary project teams.

### Job qualifications

- Bachelor or University degree Technical Computer Science or equal;
- 1 to 5 years of software development experience;
- Experience with the Linux OS and it's relevant development toolchain;
- Experience with OO modelling;
- Experience with multiple programming languages such as C / C++;
- Experience with Agile development methods;
- Knowledge of video and audio technologies is an advantage;
- Affinity with electronics and hardware is an advantage;
- Creative, out-of-the box, pragmatic;
- Communicative, written and verbal in Dutch and English;
- A flexible team player who can also work independently;
- Able to understand quickly a technical domain and its complexity;
- Quality driven.

### Offer

- Independence and responsibility in a dynamic company with short communication lines;
- Flexible working hours;
- An excellent salary with social benefits;
- Travel allowance, pension plan, study budget.

### Application
