We are looking for an enthusiastic and creative engineer who will have responsibility for the full software development life cycle of projects including the design, implementation, testing and deployment of the application.

Working in a small team environment based in the UK near Wokingham, Berkshire you will be part of a larger department of engineers designing specialised products for the professional video and audio broadcasting market.

Tasks will include:

- Reviewing of allocated software requirements
- Formulation of software designs and related implementation, consistent with existing designs and compliant to in-house style
- Integration / Interface of software with hardware products
- Production of relevant documentation for each required task
- Preparation of specified test plans and test cases and related software testing
- Realisation of both the team and individual yearly specified objectives

### Your qualifications

- Degree based qualification ideally in Computer Science or Software/Electronic Engineering
- Very strong command of object orientated programming
- Experienced in designing and writing software for multi-threaded applications in C++ or C# for Windows platforms ideally using Visual Studio
- Experience of programming with network layers like UDP, TCP/IP and HTTP
- Experience of user interface design and programming
- Knowledge of common networking protocols and good understanding of infrastructure an advantage
- Knowledge of video and audio technologies an advantage
- Knowledge of programming with SQL databases an advantage
- Some experience in embedded hardware environments and RTOS an advantage
- Representative, motivated and driven with good analytical and problem solving skills
- Good command of the English language orally and in writing;
- Able to work under pressure and with great communicative, social and analyzing skills
- A dynamical and flexible personality who enjoys working in a team;

**What do we offer you?**

- Independence and responsibility in a fast growing company with short communication lines.
- An excellent salary with social benefits

**Join the team, apply now!**
